MAP for Primary Grades

- Do you want the ability to take multiple looks at your data, and see different groupings of your students? The CLASS BY SUBJECT REPORT is a good option for this work.
- Use the Class by Subject Report if you want to view disaggregated data.
- IMPORTANT! The effectiveness of this reports depends on the way that the Class Roster File is submitted to NWEA before you begin testing. Work with your district MAP coordinator to discuss which teachers need easy access to which students' data.
